

Season 1 Episode 21

Meet the In Laws

Ivan and Safron are carrying luggage and they walk down the street of a suburb in the Ultraverse. Safron said, "You are going to love my family. My family is the best." Ivan said, "Everyone thinks that about their family." Safron said, "I guess that is so." Safron takes Ivan to her house and she opens up the door allowing herself and Ivan to enter. Mystika greets them at the door and he said, "Hello, Ivan. I haven't seen you in a while. How is the life of a monk treating you?" Ivan said, "It is good, I guess." Safron's younger sister, Maggie enters the scene and she said, "Safron, where did you put the charger for my computer? I have been meaning to use it to chat with that guy again and..." Maggie takes a look at Ivan and her eyes go to hearts. Maggie said, "Is this the Ivan you are always telling us about?" Safron said, "In the flesh." Maggie said, "Ivan." Maggie shakes Ivan's hand and Maggie said, "This is awesome that I am finally meeting you. I can carry your luggage for you. I will help you get settled." Mystika said, "It looks like we are off to an awesome start."

Baxon is in the basement of the monk monastery where pipe flow everywhere and there are machines with dials and switches to control things in the monastery. Baxon places explosive devices on the pipes and he adjusts them. He goes to the controls and he sets all of the coolant settings to far above nominal. Baxon goes to his watch and he said, "Master, I have set all the hydropexil bombs in the basement of the monastery. I placed them at every critical point." The voice on the other end of the watch said, "Good. The monastery is located near the center of the main Ultraverse city. When these are detonated with the set controls, all the main important people of the Ultraverse will be dehydrated. Now you must evacuate to the mothership in orbit right now." Baxon said, "I will." Baxon leaves the basement and he walks into the street and he goes to a phonebooth. Baxon takes the phone and dials a combination of numbers and he is transported to a large black and green mothership in Ultraverse space far above the surface of the Ultraverse. The mothership is filled with troops in space aged armor and they work at computer terminals. Baxon takes a seat and he looks over schematics of a plan.

Maggie bring Ivan to the bedroom he will be staying at. Ivan looks at the walls of the bedroom and he sees posters for boybands and girly things. Ivan said, "Is this a girl's room?" Maggie said, "This is my bedroom. I wanted you to stay in it. It is the best

bedroom in this house.” Ivan said, “I’m sure it is.” Ivan places down his luggage and he sits on the bed. Maggie said, “What’s it like?” Ivan said, “The life of a monk has its fair share of dangers and hazards and...” Maggie said, “No, I mean, what is it like being what you are?” Ivan said, “You mean a yin-yangite?” Maggie said, “That’s what they’re called? Are they all cute and sweet?” Maggie gives a large comical grin to Ivan. Ivan said, “Not all yin-yangites look like me. I have only ever met one other one at this point and it was Star Monk. I mistook him for Buddha when I first saw him.” Maggie said, “I guess you really are one in a kind then.” Maggie opens up Ivan’s luggage and she starts going through his stuff. Maggie finds Ivan’s sword and she pretends to slash things up with it. Maggie said, “This sword looks awesome.” Ivan said, “All the monks in the Ultraverse get those.” Maggie plays around with it some more and then she goes through the luggage and she finds some books with yin-yangs on them. Ivan said, “Those are the books I took from Star Monk’s place just as he died. The contents of those books are not replaceable. I cannot risk them getting stolen so I carry them with me everywhere.” Maggie said, “Cool.” Maggie goes through the luggage and she finds a green long-sleeved t-shirt with the yin-yang and it looks exactly like the one Ivan is currently wearing. Maggie said, “Do all your shirts have yin-yangs on them?” Ivan said, “Pretty much.” Maggie goes through the luggage some more and she finds a pair of boxers that are blue and tiled with yin-yangs. Maggie’s eyes go big and she faints.

Ivan leaves the bedroom and he walks down the hall and Safron’s older sister said, “Come here, Ivan.” Ivan enters her bedroom and it looks very sophisticated and is filled with complex architecture. Safron’s older sister, Casi said, “What do you think of what I wrote? ‘Is this my aspiration? Is it really what I desire? To find my purpose in life or to have it all me rolled out without any effort...’ That is where I am stuck.” Ivan said, “Maybe you can make a reference to fake memories or strange complexes involving catastrophic and dire consequences to the Ultraverse if a goal or condition is not met.” Casi’s eyes go big and she said, “I never heard such a complex nonchalant sophisticated façade of a juxtaposition that could have a high degree of relevance to the work.” Casi jots this down quickly. Safron sees Ivan and Casi are busy writing and Maggie is still passed out on her bedroom floor with Ivan’s yin-yang boxers in her grip. Safron sneaks out of the house with her skateboard and she goes to compete in a skateboard tournament.

One top-of-the-top skateboarder does all the halfpipes while spinning in the air and jumping off the skateboard and bouncing it like a ball in his hands and he throws it to the ground and lands on it and skates the edge of the playing field. All the judges give him perfect 10’s and one gives him an 11. The announcer said, “Drix, the skateboarding champion of the Ultraverse wins another unsurprising victory over the competition.” All of Drix’s competitors are sitting on the sideline in casts and stitches. Safron enters the tournament. The announcer said, “It looks like we have one more

challenger. Safron gets on her skateboard and she quickly skates around the halfpipe and she jumps and flips her skateboard in the air.

Safron stands on her skateboard with one arm and her body in the air. Safron spins her board around and she lands on her skateboard and she speeds around the halfpipes again and she makes herself blast high off one of them. Safron is hanging in the air and everyone is watching with suspense and intrigue.

Keith is at the library looking over books on ionic compounds. Keith looks at the books and there is a blast outside and it engulfs Keith and he is left as a dehydrated cube. Everyone in the library is a dehydrated cube. Dirk is walking around the monastery and he gets turned into a dehydrated cube. All the monks at the monastery get turned to cubes. The blast engulfs the center of the main Ultraverse city and all the people there are turned to dehydrated cubes. Safron is in the air and she looks down at everything and she sees everyone is cubes and there is a large blast. Safron said, "This doesn't look good. This looks like the wrongdoing of one of many villains of the Ultraverse. I guess we must play the hero again and..." Safron falls into the blast and turns into a cube.

Mystika is in the family main room and he is watching TV and everyone on the TV is turned to cubes and the rolling camera stays in place. Mystika yells, "Everyone! Come quick!" Ivan, Casi, and Maggie crowd around the TV and they see all the cubes. Ivan said, "What happened?" Maggie said, "Were you watching a show about cubes?" Mystika said, "This better not be what I think it may be." Ivan said, "What do you think it is?" Mystika said, "Someone activated a dehydration bomb. I read all about these. They are bombs that go off and dehydrates everything in close proximity. It is likely a plot from some evil force. Those cubes were once people." Maggie said, "Are they dead?" Mystika said, "Technically, no. They can be brought back with hydration formulas. I am sure the monks have something." Casi said, "Is it safe to go to that place?" Mystika said, "It looks like the bombs have taken their toll. It doesn't look like they can dehydrate anything more." Maggie said, "Where's Safron?" Mystika said, "Safron ran off to do something in the city and... she probably got dehydrated." Maggie said, "We need to do something. We need to figure out who is doing this and crush them." Mystika said, "We will. I will stay at the house and check the computer and TV for updates. We will stay in contact with our communicators." Mystika shows his Ultraverse monk communicator and Ivan shows his.

Ivan, Casi, and Maggie walk around the city center and they see cubes everywhere. They head to the monastery and they see cubes lying around. Maggie grabs one of the cubes and looks at it. They see a guy in a space-aged suit covered

with buttons grabbing cubes and placing them in a garbage bag. Maggie points to him and she said, "That guy is stealing the cubes!" Ivan, Casi, and Maggie run for the guy and the guy sees them. Ivan throws his sword at the guy but he moves and the sword misses. Maggie sprints faster than ever and she grabs onto the guy and pins him to the ground. Maggie pounds the guy in the face several times. Maggie said, "What have you done to these people and where are you from?" Ivan gets his sword back and he holds the sword over the guy. Ivan said, "You will tell us what the plan is." The guy said, "I need to teleport back to my mothership in orbit." Ivan said, "You have a mothership in orbit?" The guy said, "That's what I just said." Maggie said, "Then teleport back right now so you can avoid a pounding from me." The guy said, "I can't. You are clinging onto me right now. If I teleport back there, you will come with me and our secret will be exposed." Ivan said, "How do you teleport back?" The guy said, "I cannot tell you that." Ivan sees a belt with a bunch of controls on the guy. Ivan takes the belt and he said, "Is it on this belt of controls?" The guy yells, "NO! Don't press any of those!" Casi said, "It is on that belt then." Ivan said, "There is a button on here with a picture of a mothership on it. I bet I know what it does." Casi and Maggie grab onto Ivan and Ivan presses the mothership button and they are teleported to the mothership.

Ivan, Casi, and Maggie are in some kind of hanger where there are more of those space age troops with buttons. They spot, Ivan, Casi, and Maggie. They take out ray guns and they blast them at the heroes. Ivan takes out his sword and he blocks the ray blasts with it. Ivan slashes down one of the troops and he drops his ray gun and it slides to Maggie. Maggie grabs it and she shoots down some of the bad guys with it. Ivan, Casi, and Maggie leave the hanger and they see a large terminal where the space age troops are at work placing cubes into computers and processing information from the people the cubes were. There is a large screen in the center of this and Baxon is on the screen. Baxon said, "It has just occurred to me that Ivan may be among us right now. If you find Ivan, bring him to me." Ivan, Casi, and Maggie hide behind a crate. Ivan said, "It looks like Baxon is behind this." Casi said, "You know that guy?" Ivan said, "I knew something was up with him. Keith told me a lot about him. Keith says Baxon craves to eventually have Grand Master Augi's job. Baxon did go against me in court once. This all makes sense." Maggie said, "What are we going to do? Will we fry him?" Ivan said, "I need to expose his wrongdoing to Master Augi and have Baxon expelled from the Ultraverse monks."

One of the guys spots them and swarms of the space age troops pour in the terminal and they constantly blast at Ivan. Ivan fights off the space age troops but Ivan gets overwhelmed and pounded and handcuffed. Things snap in Maggie's mind and she goes nuts and shoots down several of the space age guys with her ray gun. The space age guys gang up on Casi and Maggie and they get tazerred and captured.

Ivan is brought into a main office where Baxon sits at the head and behind him is a painting of Baxon in full detail. Baxon said, "The moment of truth is here." Ivan said, "What do you want?" Baxon said, "Haven't you figured out yet? I think it is time the monks finally get a new leader. A regime change for the monks and eventually the Ultraverse is the one thing the Ultraverse needs." Ivan said, "The Ultraverse is not always the best place but ruling the Ultraverse is impossible considering how many universes there are." Baxon said, "Zip it. I don't care about most of the universes. I only care about the Ultraverse and the better universes like the one Mystika made. I knew you would end up here eventually since you are immune to the dehydration bombs I planted in the monastery." Ivan said, "How would you know that?" Baxon said, "I have your medical records right here. These are normally locked and guarded at the monastery but all the guards are cubes now." Baxon looks through Ivan's medical records. Ivan jumps to Baxon and Baxon takes out his sword and Ivan takes out his sword and they duel.

Casi and Maggie are in a holding cell guarded by one of the space aged troops. Maggie said, "Well... How are we going to get out of this one?" Casi said, "There must be some kind of vent or something." Casi and Maggie look around the holding cell and they find nothing. The guard said, "There are no vents in here. There is absolutely no way to get out of here but this door open button I have right here." Casi said, "Is this really how you desire to spend every waking moment of your life? Your life is to be filled with wonderous joy of all the endeavors you will encounter. Do you really want to spend your limited time working in a dark and dusty jail room? Wouldn't you rather do something brave, noble and heroic and go down in history as one of the greatest heroes to have ever graced the very fabric of the Ultraverse?" The guard said, "I was told I would get promoted to a desirable job where I would be the commander of a platoon. That was six years ago and I am still just doing the simple entry level job. I have been wronged by these people. I shall make it right." The guard presses the button and the cell opens and Casi and Maggie are free.

Ivan duels Baxon and they clash their swords with each other and they swing at each other and block each other. Baxon said, "You are good considering you've only been a monk for less than a year." Ivan tries to grab the papers but Baxon maintains a tight grip on them. Casi and Maggie burst into the office. Maggie fires a ray gun at Baxon and Baxon blocks it with his sword and Ivan snatches the papers. Ivan said, "These are mine." Maggie said, "Leave Ivan alone. It is not his fault he is cute, I mean, weird." Casi and Maggie guard and protect Ivan and Baxon said, "Look at this. It looks like Ivan has found himself a girlfriend. Make that two girlfriends. You must be one lucky guy. I wish chicks would fall for me like that." Maggie said, "You are going to show us how to bring everyone back from those cubes." Baxon said, "The compounds are quite difficult to produce. What are you going to do if I don't give you anything? You are just a sissy little girl and I am a trained and experienced monk." Maggie jumps

to Baxon and she beats the crap out of him. She smacks him in the head and then she pounds him to the floor. Maggie reaches through his monk robes and she finds some keys. Maggie said, "I found a set of keys." Baxon said, "You will never find out where those go to." Maggie sees a locked door and she said, "I guess they lead to this door." Baxon tries to stop Maggie but Ivan and Casi grab him and Maggie goes to the door and opens it.

It reveals a control room that controls the mothership. Ivan and Casi bring Baxon to the control room. Baxon said, "There is nothing there that could be used to bring your friends back." Ivan said, "You will tell us how to bring everyone back or we will crash the mothership." Baxon said, "It is quite complex and..." Maggie said, "What does this button do?" Maggie presses a random button and the core of the mothership is released and it falls to the Ultraverse main world and smashes. A voice said, "Warning. Ship condition critical. Evacuate at once. Orbiting stabilizer is offline." Maggie gives Baxon a deranged angry look. Maggie plays with the controls and controls the ship as it starts descending from orbit. Maggie jerks the ship around. Baxon sweats and he looks at everyone. Baxon said, "Fine. You win. I will tell you where the formula is."

Maggie crashes the mothership on the outskirts of the main Ultraverse city. Mystika and Grand Master Augi watch the mothership crash. They see Ivan, Maggie, Casi, and Baxon leaving the remains. Mystika said, "My girls. I am glad you are alright." Master Augi said, "Ivan. I am glad you didn't get dehydrated and that you are still alive after all that." Ivan hands Master Augi a paper. Ivan said, "Apparently this is the formula to bring everyone back from the cubes of dehydration. Our monk, Baxon seems to be the culprit behind this." Augi looks at Baxon and he said, "Is that so? I guess I will deal with this. Baxon is a monk and I do have authority over penalties given to Ultraverse monks. I will see what can be done with this formula."

Everyone is back to normal and Ivan, Safron, and Dirk are walking down a street in the main Ultraverse city. Safron said, "Baxon was the culprit behind all this?" Ivan said, "That's how it appeared to be." Dirk said, "I knew something was up with that monk. He always came off as being a creep." Casi and Maggie come across Ivan, Safron, and Dirk. Casi said, "It is good to have you back, sis." Maggie hugs Ivan and Maggie said, "Ivan is my hero. Ivan went against Baxon in a heroic battle and he allowed me to control the mothership which brought us to victory. That was the greatest moment of my life and it is barely beginning."

Baxon is in a beach house on a beach somewhere in a universe and he gets a video call on a computer from Master Augi. Augi said, "How's the beach house I gave

you holding up?" Baxon said, "It could be better." Augi said, "That is part of the price for isolation. All the monks are under the impression that you have been banished from the order and that you are now living in a prison somewhere. I will still need you for my plan. So far, everything is working fine. Did you scan Ivan's medical records?" Baxon said, "I did." Baxon views Ivan's medical records and other records on his computer. Baxon said, "I am sending you the encrypted file right now." Augi said, "Perfect. This is the necessary information we need if we are to produce an army of yin-yangites that will serve as our troops to rule the Ultraverse. I also trust you have secured the data we scanned from the dehydrated cubes. There could be other information in there that could aid our plot"
